HAYWARD COMMUNITY SCHOOL DISTRICT **HUMAN GROWTH AND DEVELOPMENT PROGRAMS**

School boards may provide an instructional program in human growth and development. Such a program may include instruction in human sexuality, reproduction, family planning, human immunodeficiency virus and AIDS, prenatal development, child birth, adoption, available prenatal and postnatal support, and male and female responsibility.

Parents/guardians may also review the curriculum outline and any instructional materials any time during the school year by contacting your child's building principal. Parents/guardians have the opportunity to exempt their children from participation in human growth and development activities. If you do not wish your child to participate in the activities, please inform your child's teacher in writing. Please note that students exempted from instruction will still receive 1) instruction on physiology and hygiene, sanitation, the effects of controlled substances and alcohol upon the human system, symptoms of disease and the proper care of the body, unless exempted (please inform your child's teacher in writing if you want your child exempted from the preceding also); and 2) instruction on effective means why which pupils may recognize, avoid, prevent and halt physically or psychologically intrusive or abusive situations which may be harmful to pupils.
