Our intention is to have “shovels in the ground” this spring with the goal to have the HS and PS completed by Fall of 2024. Project Managers solicited input from HS leads at Sept. meeting. We are looking at a total remodel of technology wing, library updates, new gym and walking track, Central Office will be moving to the HS, commons area updated, auditorium update, Home Ec. is getting updates, secure entrances in all schools, all buildings getting new LED lighting.
 - c. Concerns about all the proposed glass - is it secure? We are very confident that the glass will not be breached by an intruder. All ALICE protocols will be updated as necessary when building project is complete to ensure that our staff and students are safe.
